WORK EXPERIENCE

Datta Meghe College Of Engineering, Airoli

August 2020 - July 2021

Full Stack Developer

- Leader of 5-student team for redeveloping our college website from scratch. (dmce.ac.in)
- Worked on the backend section to make the website dynamic and secure using PHP, MYSQL and JAVASCRIPT.
- Connected Github repository to the server thus creating a pipeline for deployment. Also enabled SSL and updated server-side settings from security POV.

Outshade Digital Media, Hyderabad

August 2020 - September 2020

Flutter App Developer

- Developed a FLUTTER app and admin panel (Flutter Web).
- App tracks user history and notify them if their location history matches with a covid-19 victim using FIREBASE and CLOUD FUNCTIONS.
- Admin can update the victims by just entering their mobile numbers.

PROJECTS

CryptoLink

Personal project

Crypto currency exchange and mining platform based on blockchain network developed using

Node, Express, React and **Redis**.

Tesoroheist website

Technitude 2021

Treasure hunt website which provides randomised questions to the player which lead to a single answer.

Utilized **Php** and **MySQL**.

Career Buddy

Algorithm 6.0

Help users visualize their milestones for a their specific career goals and plan their career.

Leveraged **Flutter** for building android app and **Firebase** for backend operations and authentication.
